MBA in Technology & Entrepreneurship

Tri-continent MBA (with Fox School of Business)

Executive MBA

Keywords: MBA, "Masters of Business Admnistration", Management, "Executive Education", technology, innovation, entrepreneurship, management, business, education, international, mobility, global, Paris, ENPC, "business school"

Program Language: English

Context:

Within an increasingly global context, rising international mobility and stronger demand for managerial knowledge and skills, the ENPC MBA is a key asset for highly-qualified internationally-oriented managers.

Aims:

The ENPC MBA academic program has been designed to offer curricular excellence and pedagogical innovation in Management. The curriculum provides a breadth of knowledge and skills, and consists of courses in the following study tracks:

Finance and Accounting
Economics and International Business
Marketing and Strategy
Management and Leadership
Technology and Entrepreneurship

Participants choose courses taking into consideration their previous education, work experience, future career plans, and the minimum number of credits required in each study track.

Participants join the ENPC MBA Program with individual sets of personal and professional experiences and expectations. Therefore, the MBA Program supplements key management knowledge and skills (e.g., economics, marketing, finance, accounting, strategy) with opportunities to develop an individual management ethic, to work with international and multi-cultural teams, and to create perspectives for addressing global issues.

The ENPC MBA Program encourages participants' entrepreneurial spirit by emphasising how leaders apply self-reliance and innovation to the challenge of creating and developing organizations. The emphasis on entrepreneurship is one example of how the ENPC MBA Program provides opportunities for participants to apply individual initiative and leadership.

The ENPC MBA international focus is delivered by an outstanding faculty with extensive international experience and achievements. Courses are designed to ensure that connections are made to current international issues and concerns.

The ENPC MBA Program in Paris is a leading player in a network of graduate programs that provide exposure to international business and global issues in a variety of geographical and cultural settings. Through this network, participants in the MBA Program in Paris may attend some courses during the Spring Semester at the ENPC MBA's sister institutions in Casablanca, Abu Dhabi, New Delhi or Shanghai.

Skills acquired:

MBA graduates acquire a wide range of business, management and technical skills at the end of their program which will accompany them throughout their lives and professional careers including:
